

ERIC, sponsored by the US Department of Education, is the premier national bibliographic database of education literature. ERIC consists of two files: Resources in Education, which covers the document literature, consisting of research reports, curriculum and teaching guides, conference papers, and books; and Current Index to Journals in Education, which covers published journal literature from over 775 periodicals. Ovid's ERIC also includes the full text of ERIC Digest Records. These one- to two-page records, written specifically for teachers, administrators, and other practitioners, provide an overview of information on a given topic and supply references with more detailed information. ERIC subscriptions are available in various coverage options. Ovid's ERIC document records include links to ERIC documents, available electronically through ERIC Document Reproduction Service (EDRS).

Links to Electronic Full Text Journals

Listed below are the currently available Open Access journals indexed in ERIC. On the Ovid platform the links will be activated automatically for you. Please contact support@ovid.com for further assistance.
