

Ei Compendex is the most comprehensive interdisciplinary engineering databases in the world, with over six million summaries of journal articles, technical reports, and conference papers and proceedings in electronic form, dating from 1970. Abstracts from over 5,000 international journals, conferences papers and technical reports are included. Each year, over 220,000 new abstracts are added from 175 disciplines and major specialties.

Ovid now offers enhanced value to the database through the Ei Compendex Links Package providing links to FREE Open Access Electronic Full Text and useful links to relevant Internet Resources on the Web.

Links to Electronic Full Text Journals

Listed below are the currently available Open Access journals indexed in the Ei Compendex database. On the Ovid platform the links will be for you activated automatically. For SilverPlatter, please follow the simple instructions [here](#) or contact support@ovid.com for further assistance.

Links to Valuable Internet Resources

Ovid can provide one or more of the following Internet Resources, leveraging the full power of the Internet in your users' Ei Compendex links. To activate simply follow the steps outlined for the [Ovid](#) and [SilverPlatter](#) platforms. Alternatively, please contact your Ovid Customer Support Representative at support@ovid.com.

ARC - Cross Archive Searching http://arc.cs.odu.edu	ARC is a research service of the Digital Library Research group at Old Dominion University; it uses Ovid's SUBJECTS_ALL field to search ARC's Open Access archives.
AVEL Engineering Portal* http://avel.edu.au/	AVEL's Engineering Portal - Sustainability Knowledge Network - Subject Gateway; Uses Ovid's SUBJECTS_ALL field to search for quality resources in sustainable systems & engineering.
CERN Documents http://weblib.cern.ch	CERN Research Reports links on Ovid's SUBJECTS_ALL field. Includes over 650,000 bibliographic records, 320,000 fulltext documents, of interest to people working in particle physics and related areas. Covers preprints, articles, books, journals, photographs, and much more.
EEVL Engineering Portal* http://www.eevl.ac.uk/	EEVL is the Internet Guide to Engineering, Mathematics and Computing. Uses Ovid's SUBJECT_ALL field, EEVL provides link access to quality networked engineering, mathematics and computing resources. It is created and run by a team of information specialists and universities and institutions in the UK.
INFOMINE* http://infomine.ucr.edu	INFOMINE is a virtual library of Internet resources developed by university librarians. It contains a variety of scholarly resources appropriate for faculty, students, and research staff at the university level.
PSIgate http://www.psigate.ac.uk	PSIgate is a free service that offers access to high quality Web resources in the physical sciences; it contains over 12,000 resources in astronomy, chemistry, earth sciences, materials sciences, physics, and science history and policy.

RDN - Resource Discovery Network

<http://www.rdn.ac.uk>

This link uses the SUBJECTS_ALL field to search the Resource Discovery Network (RDN), which is the UK's national gateway to Internet resources for the learning, teaching and research community. The service currently links to more than 80,000 resources via a series of subject-based information gateways (or hubs).

SCIRUS

<http://www.scirus.com>

Scirus is the most comprehensive science-specific search engine on the Internet. Driven by the latest search engine technology, Scirus searches over 167 million science-specific Web pages, enabling you to quickly pinpoint scientific, scholarly, technical and medical data on the Web.:

World Health Organization*

<http://www.who.int/en/>

The World Health Organization is the United Nations specialized agency for health. Health is defined in WHO's Constitution as a state of complete physical, mental and social well-being and not merely the absence of disease or infirmity.
