

International Bibliography of Social Sciences, from the British Library of Political and Economic Science of the London School of Economics and Political Science, indexes the information contained in over 2,600 social sciences journals and 6,000 books each year. Coverage includes both core and specialized material from over 100 countries in more than 90 languages. Approximately 70% of the records are in English, and articles in other languages are displayed with both the original language title as well as with an English translation. The comprehensive coverage provided in the database, while based on the core disciplines of anthropology, economics, political science and sociology, also reflects the increasingly interdisciplinary nature of the social sciences.

Links to Electronic Full Text Journals

Listed below are the currently available Open Access journals indexed in IBSS. On the Ovid platform the links will be activated automatically. For SilverPlatter, please follow the simple instructions [here](#) or contact support@ovid.com for further assistance.

Links to Valuable Internet Resources

Ovid can provide one or more of the following Internet Resources, leveraging the full power of the Internet in your users' IBSS links. To activate simply follow the steps outlined for the [Ovid](#) platform. Alternatively, please contact your Ovid Customer Support Representative at support@ovid.com.

RDN - Resource Discovery Network http://www.rdn.ac.uk	This portal uses the SUBJECTS_ALL field to search the Resource Discovery Network (RDN) which is the UK's national gateway to Internet resources for the learning, teaching and research community. The service currently links to more than 80,000 resources via a series of subject-based information gateways (or hubs). The RDN is primarily aimed at Internet users for further higher education.
INFOMINE http://infomine.ucr.edu	INFOMINE is a virtual library of Internet resources developed by university librarians. It contains a variety of scholarly resources appropriate for faculty, students, and research staff at the university level.
SCIRUS http://www.scirus.com	Scirus is the most comprehensive science-specific search engine on the Internet. Driven by the latest search engine technology, Scirus searches over 167 million science-specific Web pages, enabling you to quickly pinpoint scientific, scholarly, technical and medical data on the Web.
Wikipedia http://wikipedia.org/	Wikipedia is a Web-based, free-content encyclopedia written collaboratively by volunteers and sponsored by the non-profit Wikimedia Foundation.
