

Ovid's PsycINFO database contains citations and summaries of journal articles, book chapters, books, dissertations, and technical reports, all in the field of psychology and the psychological aspects of related disciplines, such as medicine, psychiatry, nursing, sociology, education, pharmacology, physiology, linguistics, anthropology, business, and law. Journal coverage, spanning 1887-present, includes international material selected from more than 1,500 periodicals written in over 35 languages. Current chapter and book coverage includes worldwide English-language material published from 1987-present. Over 60,000 references are added annually through weekly updates.

Ovid now offers enhanced value to the database through the PsycINFO Links Package providing links to FREE Open Access Electronic Full Text and useful links to relevant Internet Resources on the Web.

Links to Electronic Full Text Journals

Listed below are the currently available Open Access journals indexed in PsycINFO. On the Ovid platform the links will be for you activated automatically. For SilverPlatter, please follow the simple instructions [here](#) or contact support@ovid.com for further assistance.

Links to Valuable Internet Resources

Ovid can provide one or more of the following Internet Resources, leveraging the full power of the Internet in your users' PsycINFO links. To activate simply follow the steps outlined for the [Ovid](#) and [SilverPlatter](#) platforms. Alternatively, please contact your Ovid Customer Support Representative at support@ovid.com.

CogPrints http://cogprints.org	CogPrints is an electronic archive for self-archive papers in any area of psychology, neuroscience and linguistics and many areas of computer science, philosophy, biology, medicine, anthropology, as well as other portions of the physical, social and mathematical sciences that are pertinent to the study of cognition.
ARC - Cross Archive Searching* http://arc.cs.odu.edu	ARC is a research service of the Digital Library Research group at Old Dominion University; it uses Ovid's SUBJECTS_ALL field to search ARC's Open Access archives.
RePec Archive* http://ideas.repec.org	RePec searches the largest bibliographic database dedicated to Economics and available on the Internet. Over 270,000 research items can be browsed or searched, and over 175'000 can be downloaded in full text
RDN - Resource Discovery Network http://www.rdn.ac.uk	This portal uses the SUBJECTS_ALL field to search the Resource Discovery Network (RDN) which is the UK's national gateway to Internet resources for the learning, teaching and research community. The service currently links to more than 80,000 resources via a series of subject-based information gateways (or hubs). The RDN is primarily aimed at Internet users for further higher education.
SCIRUS http://www.scirus.com	Scirus is the most comprehensive science-specific search engine on the Internet. Driven by the latest search engine technology, Scirus searches over 167 million science-specific Web pages, enabling you to quickly pinpoint scientific, scholarly, technical and medical data on the Web.:
